Mission:

This matrix is to be completed only when an action to address an Assessment Result will require additional resources. This form will provide documentation in the budget process.

Expected Results	Assessment Tools	Assessment Results	Action(s) Taken	Resources Required
This is a capstone course which utilizes formal seminars, thesis, and thesis defense as the assessment tools. The student works under the supervision of a thesis committee.	Students are expected to be able to plan, execute and properly disseminate the results of a research problem. These problem may be laboratory projects (CHEM 419/420) or library search problems (CHEM 425/426). Success is defined by satisfactorily defending the written thesis before the research committee.	Data collected during the three year time period indicate the standards have been met.	No remedial actions were deemed necessary.	Provide funding that will allow for planned upgrades of facilities (particularly multimedia).
