Students who successfully complete this degree plan will have a background in the general theories of chemistry that are further augmented by the five major areas of chemistry: analytical, inorganic, organic, physical, and biochemistry. The level of coverage will provide the student with a strong technical background in chemistry.	Student portfolios and student exit questionnaires.	Based on the data in the summary table, all goals relative to knowledge base acquired, student satisfaction, and career attainment were met.	The conclusions drawn from this information indicates that we are providing the students with the goals/skills that we set forth for the program. No remedial actions were deemed necessary.	Provide funding in the \$12,000-15000 range that will allow for planned upgrades of facilities.
