

## Supplemental Annual Assessment Report Matrix

Department/Activity: BS-Biochemistry Specialty in Chemistry Program

Date: 7/29/03

Program (if applicable):

### Mission:

This matrix is to be completed only when an action to address an Assessment Result will require additional resources. This form will provide documentation in the budget process.

Expected Results	Assessment Tools	Assessment Results	Action(s) Taken	Resources Required
Students who successfully complete this degree plan will have a more in-depth background in biochemistry than what is provided in the B.S. in Chemistry program. As a result of this higher level of coverage, the students who successfully complete this program will be able to pursue the more "research-oriented" areas of biochemistry in addition to the same opportunities as the B.S. degree holders.	Student portfolios and student exit questionnaires.	Based on the data in the summary table, all goals relative to knowledge base acquired, student satisfaction, and career attainment were met.	The conclusions drawn from this information indicate that we are providing the students with the goals/skills that we set forth for the program. No remedial actions were deemed necessary.	Provide funding in the \$12,000-15000 range that will allow for planned upgrades of facilities.
