

EMPLOYEE'S CERTIFICATION

South Carolina State law prohibits State employment to persons who have willfully defaulted on student loans. Accordingly, all members of the faculty and staff employed at The Citadel, and applicants for employment, are required to complete the following certification.

Check one:

I certify that I am not in default of any of the following types of loans:

- National Direct Student Loan
- National Defense Student Loan
- Guaranteed-Federally Insured Student Loan
- Nursing Student Loan
- Health Professions Student Loan
- Law Enforcement Educational Loan

I understand that defaulting on such loans will preclude my continued or future employment with the South Carolina State Government unless I voluntarily enter into an agreement after default in which terms the debt will be repaid and the lender provides written confirmation of the agreement to the State. I will inform The Citadel Human Resources Department in writing of any future defaults on these types of loans.

I am currently in default on one or more of the above loans and I will contact The Citadel Human Resources Department within three days of signing this statement in order to determine a deadline by which I must present written confirmation of an after default agreement to The Citadel Human Resources Department.

I understand that my failure to contact The Citadel Human Resources Department by the deadline will result in termination of my employment.
