The motion to approve the minutes as one was made by Colonel Kastner and seconded by Colonel Love. The minutes were approved unanimously.

Chair Snyder called on President Rosa for his report.

President Rosa opened by thanking the board for their full engagement in the challenges facing the college, particularly those with finances and strategic planning.

The Corps of Cadets continues to excel in academics and is responding positively to its cadet leadership, which has been very strong and consistent throughout the battalions. All indicators point to the Corps moving in the right direction.

Admissions for 2011-2012 are ahead of expectations and we are seeing interest increase among women and minority applications.

He reported that two dean searches were underway and that three highly qualified candidates had been identified for the new position of Executive Vice President for Finance, Administration, and Operations.

He noted uncertainty as to the percentage of the state appropriation reduction in the upcoming budget cycle. It could be as much as 15%. The college has reduced staff by 12% over the past three years to help offset the reduction of state funding. This has been a part of reducing operating expenses by $5.7 million over the past three years. He went on to say that operational efficiency of the college has improved but a more focused effort by the college fundraising entities must be made to ensure the college’s continued growth and competitiveness in the marketplace.

He closed by noting the excellence of The Citadel Foundation’s efforts this past year, emphasizing that we needed to get the alumni more involved as funds raised by The Citadel Foundation and The Citadel Brigadier Foundation will become critical in supporting the initiatives in The Citadel Blueprint as the college moves forward.
