Programs And Courses Developed

Intelligence and Security Studies (ISS) Minor: A selective, intense, 18-hour minor that prepares students for entry-level positions in the public or private intelligence communities. It is the only competitive minor (students must apply and be selected) offered at the University of Mississippi. To date, six cohorts of students have been accepted into the ISS program; the average cohort GPA varies between 3.62 and 3.78. The minor is based on competencies established by the Director of National Intelligence and has been warmly embraced by the United States intelligence community. For establishing this and other

intelligence-related programs, I received the 2012 Instructor of the Year Award from the International Association of Intelligence Education.

Certificate in Intelligence and Security Studies: A 12-hour program offered at the graduate level. The program would introduce students who already possess a bachelor's degree to concepts and skills desired by intelligence agencies for entry-level analysts. The courses will be offered online and are structured such that successful students could transfer allowable credit from the certificate into a master's degree program at the discretion of that program (awaiting approval at the University of Mississippi).

Professional Certificate in Intelligence Leadership: A 12-hour program offered at the graduate level. The program is designed for students presently serving in the intelligence community who already possess a bachelor's degree. This certificate will enhance performance in analytical assignments as well as introduce leadership concepts necessary for mid and upper level managers in a wide variety of organizations. The courses will be offered online and are structured such that successful students could transfer allowable credit from the certificate into a master's degree program at the discretion of that program (awaiting approval at the University of Mississippi).

G. SERVICE

The Citadel

A. Service as the Director of the Intelligence and Security Studies (ISS) Program. The CISS mission is threefold: 1) Provide relevant education, 2) Encourage and conduct applied research to further the IC's mission, and 3) Establish collaborative partnerships to enhance information-sharing and the dissemination of best practices. Specific service performed in establishing and directing the ISS includes:

Education:

- Established the Master of Arts (MA) in Intelligence and Security Studies, which was approved by the State of South Carolina Commission on Higher Education (CHE) in 2016. This is a 100% online program that includes a Concentration in Cybersecurity, which is jointly taught by Citadel and College of Charleston personnel.

Collaboration:

- Serve on The Citadel Cybersecurity Advisory Board
- Co-Director, Center for Cyber, Intelligence and Security Studies
- Hosted The Citadel Intelligence and Homeland Security Enterprise Conference (September 16 – 18, 2015)
- Organized and ran The Citadel Intelligence and Homeland Security Enterprise Career Fair (September 16, 2015)
- In collaboration with the Department of Mathematics and Computer Science, established the **Center for Cyber, Intelligence, and Security**

Studies (awaiting institutional and state approval). This interdisciplinary center will coordinate educational, research, and service activities relating to its areas of interest.

B. Member of the Tenure and Promotion Committee (2015 – present)

C. Member of the Faculty Senate (2016 – present)

University of Mississippi

A. Established and served as the Director of the Center for Intelligence and Security Studies (CISS): In 2008, the University of Mississippi received federal funding to establish a program to educate undergraduate students for entry-level positions in the U.S. intelligence community (IC). To accomplish this mission, the university founded CISS in 2008. The CISS mission is threefold: 1) Provide relevant education, 2) Encourage and conduct applied research to further the IC's mission, and 3) Establish collaborative partnerships to enhance information-sharing and the dissemination of best practices. To date, the CISS has brought to the university over \$6.5M in federal funding. Specific service performed in establishing and directing the CISS includes:

- Oversaw the renovation of CISS physical space (\$250,000 project)
- Hired and supervised five staff/faculty members and four graduate students
- Conducted strategic planning for CISS
- Oversaw the CISS budget and ensuring that all federal, state, and university regulations and guidelines are followed
- Carried out marketing to promote the CISS regionally, nationally, and internationally
- Oversaw the IT acquisitions of the CISS, which included sophisticated software packages currently in use by the IC (e.g., Analyst Notebook, Palantir)

Specific service activities to further the three CISS missions include:

Education:

- Designed and obtained university approval for the ISS minor. This included aligning the goals and objectives of the program with core analytical competencies established by the Director of National Intelligence
- Worked with the Department of Modern Languages to create and fund an Arabic language program
- Designed and received approval for seven undergraduate courses for the minor
- Established the cohort model and application process for prospective students

- Supervised the admission of six cohorts of students into the minor The highly selective admissions process includes a review of student accomplishments, interviews, essays, and timed writing exercises
- Designed two graduate certificate programs for those seeking employment in the IC and those already employed who desire to enter management Designed eight graduate courses for these certificate programs
- Hired adjunct staff to teach ISS courses
- Hosted and funded speakers' series to bring experts in intelligence and security matters to campus
- Advised cohort students as well as others seeking information about CISS and the IC
- Oversaw and participated in four *Days of Intrigue Practical Exercise* which introduce students to real-world scenarios to test and enhance their classroom skills
- Oversaw and supervised student presentations at conferences and workshops put on by the IC
- Advised students and wrote letters of recommendation to assist them in obtaining highly desirable internships at the FBI, CIA, NSA, DIA, and Office of the Director of National Intelligence

Research:

- Established the positions of Research Professor and Project Coordinator
- Funded and oversaw seven summer research projects for university faculty in areas of interest to the IC
- Funded multiple research projects as requested by the Defense Intelligence Agency (DIA)
- Submitted six grant proposals for projects related to IC research
- Collaborating with the University of Oklahoma Health Sciences Center in two-year DHS research project on Mental Models of Intelligence Collectors and Analysts for Characterizing Adversarial Threats project

Collaboration:

- Established CISS Advisory Board
- Provided funding for the University of Mississippi's Arabic program for four years
- Became founding member of the DIA's University Based Academic Training (UBAT) initiative
- Signed MOU with James Madison University as part of UBAT
- Signed MOU with Auburn University for joint intelligence projects
- Hosted four Five Eyes Analytical Workshops that included representatives from academe (faculty, staff, and students) and the intelligence services of the United States and allied nations
- Signed MOU with the London School of Economics and Political Science (LSE) to establish research partnership

- Hosted Beyond Rationality II Workshop and co-hosted Beyond Rationality III Workshop with LSE
 - Established partnership with Jackson State University to pursue funding for an IC Center for Academic Excellence grant
 - Joined FBI's INFRAGUARD program
 - Established mentorship program with DIA Huntsville
 - Sponsored and coordinated visits of NSA, CIA, ATF, FBI & DIA recruiters
 - Established relationship with Brunel University (United Kingdom) for series of conference concerning best practices in intelligence analysis (first conference held in July, 2012)
 - Provided consultation and crime analysis services to the following law enforcement agencies in the investigation of criminal matters:
 - Oxford, Mississippi Police Department
 - Olive Branch, Mississippi Police Department
