CSI Scholarships

There are a limited number of need-based scholarships available for CSI. These scholarships are based on need which is determined by the FAFSA results. The Office of Financial Aid & Scholarships identifies our applicants with the most need. Scholarships can range from between $500 to the full program fee of $1750. Students may only use scholarships that include designation for CSI to cover CSI program costs.

Students must complete and submit the 2015-2016 FAFSA Form by April 1st for priority consideration on CSI need based scholarships.

**All students who have applied to CSI and have completed their FAFSA information will be considered.**

Students who are eligible for need-based scholarships will be contacted directly, via email, once decisions have been made.

If you are waiting to pay your remaining balance for CSI in anticipation of receiving a scholarship, please keep in mind all students must be paid in full by June 15, 2015 or enrolled in a payment plan, regardless of scholarship awards.
