Undergraduate Curriculum Committee

Recommendations to Faculty Senate
April 28, 2016

1. Item 32: Changes in Requirements for CS
2. Item 33: CSCI 227 New title
3. Item 34: Undergraduate Curriculum Committee Charter

Note: Curriculum action items are being numbered sequentially. For example, Item 16 is labeled 16. (See attached)

1. Item 32: Proposal #32 addresses changes to the degree requirements in Computer Science (replacing MATH 240 with a 3-credit-hour General Elective, moving STAT 361 to Spring of year two and the General Elective to Spring of year three, and these program requirements retroactively apply to all enrolled CS majors as of Spring 2016). The committee supports these changes as indicated by a quorum of electronic votes.

2. Item 33: Proposal #33 is a course title request to change “Cybersecurity for Non-majors” to CSCI 227 “Principles and Practices of Cybersecurity.” The committee supports this course title change as indicated by a quorum of electronic votes.

3. Item 34: Undergraduate Curriculum Committee Charter. The committee would like to present a revised Charter for approval.
