

WebCT Timeline for Designers – Fall 2008

August 18th - Courses will be reset. Please let me know BEFORE August 18th if you do not want your course to be reset. (All students, student data, assignments, and calendar entries will be deleted from the database.)

August 13th to August 22nd – Submit requests for brand-new courses you need created. The form to request a new course is located here:
http://www.citadel.edu/computing/mm/webct/faculty/add_course_form.html

August 13th to August 22nd – Submit requests for students to be added to your WebCT courses. The form for adding students to a course is located here:
http://www.citadel.edu/computing/mm/webct/faculty/add_students_form.html

August 22nd – I will begin loading CGC students into WebCT.
**Please note that your class list is NOT automatically updated. Loading students into a course is a manual process, and any students that join your class after I load the original list into WebCT, will have to be added individually to your course.

August 25th – I will begin loading Cadets into WebCT.
**Please note that your class list is NOT automatically updated. Loading students into a course is a manual process, and any students that join your class after I load the original list into WebCT, will have to be added individually to your course.

August 25th – CGC classes start.

August 27th – SCCC classes start.

Please let me know if you have any questions.
