

# HURRICANE OPERATIONS PLAN

## QUICK REFERENCE GUIDE

Summary of Operational Conditions and Response Actions

Prepared by:

H. David Orr

Director of Environmental Health & Safety

**The Citadel**

Department of Facilities and Engineering

(843) 953-4816

## Hurricane Operations Plan – Quick Reference Guide

This document has been prepared as a quick reference which summarizes actions to be implemented by various college activities in response to the threat of a tropical storm or hurricane.

The Citadel's complete Hurricane Operations Plan may be viewed at:

[www.bulldogalert.info](http://www.bulldogalert.info)

### **CONCEPT OF OPERATION**

Operational Condition Levels (OPCONs) guide and control response action.

OPCON system coordinated and used by all State and Local authorities.

Each OPCON level (3 thru 1) represents a level of preparedness and response. **An area under OPCON 1 has received an evacuation order.**

OPCON levels are officially declared by County Emergency Operations Center's Director, in coordination with the State Emergency Preparedness Director and/or the Governor's Office.

**Baseline:** Response plan activated 5-7 days prior to storm impact.

*If an identified storm is predicted to be of an intensity that will likely warrant the mandatory evacuation of Charleston County, that evacuation is planned to occur during daylight and at least 16 hrs. prior to the impact of gale-force winds; however, the predicted storm intensity, speed, time of impact (day or night), area of impact, etc., will influence how much time is actually allowed for evacuation in each case.*

OPCONs 2 thru 1 identify action required prior to the impact of gale-force winds or other potentially dangerous conditions.

**OPCON 3 represents normal, day-to-day operations**

**Hurricane storm season: 1 Jun – 30 Nov.**

**All timelines are estimates only!** Each storm is different and will be impacted by varying conditions. **Be prepared as early as possible.**

# OPCON 3

## County EOC Action:

- **OPCON 3** - Normal Operations/Ready State
  - Day to Day Operations.
  - All storms and significant incidents are tracked and monitored.
  - Routine watch and warning activities.
  - Coordinate and conduct prevention and preparedness activities.

## Citadel's Response:

Upon receipt of a National Weather Service advisory indicating a potential threat to the South Carolina coast within the **next 5-7 days** The Citadel standup the CMT and begin monitoring potential storm.

As soon as possible, the Crisis Management Team (CMT) meets in Bond 110 Executive Conference Room (ECR) (Bond 514 Alternate) to discuss the storm's potential and begin implementing response. All campus activities will begin taking appropriate action to prepare the campus for a storm and be ready to execute responsibilities as outlined within the Hurricane Operations Plan and its Annexes:

- o Environmental Health & Safety Officer establishes liaison with Charleston County EOC.
- o Telecommunications installs/checks communication lines/handsets in EOC, Alternate, and Crisis Management Team (CMT) Chamber
- o The Commandant's Office begins preparatory activities for possible evacuation of cadets (e.g. rifle collection, transportation & shelter arrangements) and ensures that Cadet Commanders have an updated cadet tracking/ accountability roster.
- o TAC Officers check tracking/accountability rosters to ensure that all company personnel are included and have a form of transportation out of the evacuation area, should evacuation be necessary.
- o Facilities & Engineering meets to review procedures and coordinate action and personnel assignments as outlined in **Annex E** of the Hurricane Ops Plan. Resident Architect notifies campus construction contractors to prepare for possible project site shut-down.
- o Inspection of campus for unusual or difficult items that will require removal or special considerations for securing - make arrangements.
- o Executive Staff forwards updated departmental notification rosters to the EOC.
- o Class, activity, and athletic schedules and venue rentals assessed in preparation for possible modifications.
- o Preliminary Guidance published to Faculty, Staff, and Students.

# OPCON 2

## **County EOC Action:**

- **OPCON 2** - Disaster or emergency situation likely or imminent
  - Partial or Full activation of the Charleston County Emergency Operations Center.
  - Implementation of the Charleston County Emergency Operations Plan.

Citadel's Response: Upon receipt of a National Weather Service advisory indicating a potential threat to the South Carolina coast within the next **96 – 120 hours** or the county EOC moves to OPCON 2 (whichever comes first), The Citadel will move to OPCON 2.

A tropical storm or **Hurricane Watch** for the South Carolina coast may be issued by the NWS during this period.

- o The Crisis Management Team (CMT) meets to discuss the college's state of readiness and the potential for Voluntary or Mandatory Evacuation. The campus EOC begins limited activation.
- o Cadet Commanders issue copies of Corps of Cadets shelter-in-place/evacuation procedures and make sure all cadets are familiar with actions to be taken (**Appendix 2 to Annex D** of Hurricane Operations Plan).
- o Regimental Staff ensures accomplishment of required coordination with campus activities (Mess Hall, Facilities & Engineering, and Infirmary).
- o Corps of Cadets turns-in rifles no later than 48 hours from landfall.
- o Regimental Operations Officer establishes a 24 hr. phone watch to facilitate the passing of current storm information to the Corps of Cadets.
- o Begin shutdown of non-essential buildings or systems.
- o Continue campus inspection, cleanup and securing of property, and pre-stage emergency equipment and supplies (generators, chainsaws, plastic, tape, etc.) as outlined in **Annex E** of Hurricane Ops Plan.
- o Relocate, elevate, cover or otherwise protect college vehicles, boats, valuable equipment, supplies and records.
- o Cancel classes and modify other on and off-campus activity schedules, as appropriate.
- o Citadel emergency communications web site operational providing faculty, staff, students, parents with critical information ([www.bulldogalert.info](http://www.bulldogalert.info)).
- o All activities finalize procurement of emergency equipment and/or supplies.
- o Department Heads provide time for personnel to take care of personal needs.

# OPCON 1

## **County EOC Action:**

- **OPCON 1** - Disaster or Emergency Situation in Effect
  - Full activation of the Charleston County Emergency Operations Center.
  - Highest state of emergency operations.
- Additionally, the County EOC Director, in consultation with the SC Emergency Preparedness Division or the Governor's Office, may issue advisories recommending (or mandating) the evacuation of certain areas of Charleston County.
- *The actual time-frame for the issuance of these advisories is dependent upon several variables. All evacuations are planned to be initiated during daylight and completed before the arrival of gale-force winds. It is reasonable to assume that some areas of Charleston County, including the Charleston peninsula, may be under an evacuation order at the time OPCON 2 is declared.*

Citadel's Response: Upon receipt of a National Weather Service advisory indicating a potential threat to the South Carolina coast within the next **0 – 96 hours or the county EOC moves to OPCON 1** (whichever comes first), The Citadel will move to OPCON 1.

The NWS may issue a tropical storm or **Hurricane Warning** for portions of South Carolina.

- o The Crisis Management Team (CMT) meets within 2 hrs. of upgrade to OPCON 1.
- o The Citadel EOC will move to full activation with support provided as outlined in **Annex A** to facilitate 24 hr. operation.
- o The Corps of Cadets is restricted to campus and prepared to execute action outlined in **Annex D**.
- o All campus departments continue working to complete preparations and take action to protect critical facilities & property.

## **If a Mandatory Evacuation order of the campus is NOT expected:**

- o The Corps of Cadets and essential Corps support staff will be restricted the barracks and will take action as outlined in **Appendix 2 of Annex D**. All will maintain strict accountability of their assigned personnel at all times.
- o Those campus activities which provide critical support to the Corps of Cadets will prepare to execute associated duties as outlined in **Annex C**
- o Last minute guidance and direction published for dissemination to campus personnel, students, parents and others with an interest.

# OPCON 1

(Continued from previous page)

## If a Mandatory Evacuation order of the campus IS expected or received:

*Immediately upon receipt of a mandatory evacuation order from the Governor's Office, County EOC will declare **OPCON 1** for all areas covered by that order.*

- o Commandant prescribes departure uniform for Corps of Cadets.
- o Last minute guidance and direction published for dissemination to campus personnel, students, parents and others with an interest.
- o Upon order of the President, The Corps of Cadets is released by battalion.
- o Mark Clark Hall Lounge is designated as the collection point for cadets who have not yet secured transportation at the time of final barracks closure.

*The Commandant will designate a representative to account for and monitor the transportation and relocation of these cadets.*

- o Release of non-essential faculty & staff and secure campus gates
