George Fallon
IT Director, RMA Associates

As an IT Director at RMA Associates (RMA), George oversees the IT Cybersecurity practice. He brings over 30 years of experience auditing in federal IT and Cybersecurity. Before RMA, he worked in a Big Ten Accounting firm. He has managed highly knowledgeable, federal-specific cybersecurity teams with extensive experience in technical testing of networks, servers, databases, cloud providers, and web applications for vulnerabilities. George has managed skilled penetration testing specialists performing tests in some of the largest and most complex federal organizations. He has issued clear and focused reports for technical management and laymen executives, describing complex IT issues in plain language. At several forums, he authored articles and presented cybersecurity topics to technical and non-technical audiences. His latest favorite topic is Zero Trust Architecture. George has earned the following certs: CEH CISA, CDPSE, CISSP, CGFM, CPA.
