Accessibility & Privacy Statements for Course Technologies

The Citadel is committed to safeguarding and maintaining the privacy of students’ personal information and creating a fully accessible learning environment. The following technologies may appear in our online, hybrid, or face-to-face courses. Instructors of courses should link to this page (inside the syllabus or the course shell in Canvas) for updated statements of accessibility, privacy policies, and voluntary product accessibility template (VPAT) documents. Providing a link to this document also helps faculty meet Quality Matters Standards 6.4 and 8.6. If there are any course technology accessibility and privacy statements in need of corrections or that need to be vetted, please contact the Center for Excellence and Innovation in Teaching, Learning and Distance Education at ceitlde@citadel.edu.

For each technology, click the links below to view the accessibility or privacy policy statements or websites:
