

## SOLE SOURCE JUSTIFICATION

A waiver from the competitive solicitation process may be granted when based upon operational compatibility with existing equipment, strong technological grounds, a unique and cost-effective feature requirement, or when it is clearly in the State's best interest.

1.) Contract Amount:\$

2.) Requested Supplier:

### 3.) Description of Item/Service:

Evisions Argos delivers the insights via data reporting tools that will help The Citadel make timely, better-informed decisions.

### 4.) Establish the reasons The Citadel absolutely requires this specific Item/Service and the unique benefits that will be realized:

Argos is the only web based ad hoc access and report output tool designed for easy operation by end users, built specifically for Ellucian Banner clients and higher education. No other vendor makes a Banner-specific web-based reporting tool. Furthermore, there is no other product for Banner where the architecture and functionality are Banner-specific and that ties directly into the Banner security object. This provides unparalleled ease of use and security. Argos also has a cooperative of reports that allows institutions to quickly start using Argos with 200 Banner specific DataBlocks and reports, unlike any other web-based reporting tool. In addition to the tie-in to the Banner Security Object, Argos also has Insert/Update capabilities directly into Banner in which no other reporting tool is capable.

### 5.) Explanation as to why no other supplier can offer a comparable Item/Service:

Argos was internally developed, and is fully owned, by Evisions. The sales and distribution rights to the aforementioned product are controlled entirely by Evisions. Outside of Evisions, this solution may not be purchased through any other source. There is no other authorized provider of the support and product maintenance
