BRIAN J. SHERMAN, PH.D. CURRICULUM VITAE

The Citadel, The Military College of South Carolina Department of Psychology Capers Hall 3161 Charleston, SC 29409 Email: bsherman@citadel.edu Office: 843-953-6827 Mobile: 917-399-9494

EDUCATION

2017	Fellow	Medical University of South Carolina, Charleston, SC	Addi
2012	Ph.D.	Columbia University, New York, NY	Clini
2006	M.A.	Columbia University, New York, NY	Psyc
2003	B.A.	Washington University, St. Louis, MO	Psyc

Addiction Sciences Clinical Psychology Psychology and Education Psychology

STATE BOARD PROFESSIONAL LICENSURE, PSYCHOLOGIST

SC #1402 (2016) NY #020238 (2012, inactive)

CURRENT POSITION

2023 – present Assistant Professor, Tenure Track, Clinical-Counseling Psychology, Department of Psychology, *The Citadel, Charleston, SC*

RESEARCH EXPERIENCE

- 2019 2023 Assistant Professor, Tenure Track, Department of Psychiatry and Behavioral Sciences, *MUSC, Charleston, SC*
- 2017 2019 Research Assistant Professor, Department of Psychiatry and Behavioral Sciences, MUSC
- 2015 2017 National Institute of Drug Abuse, T32 Postdoctoral Fellow, *MUSC*
- 2012 2015 Project Director, Mental and Behavioral Health Tracking Project, *Center for Motivation and Change, New York, NY*
- 2012 Doctoral Dissertation (Advisor: Verdeli): How Does Difficult Temperament Predict Risk for and Presentation of Major Depression Among High and Low-Risk Offspring
- 2008 Principal Investigator, Field Research Travel Grant: Gender and Adolescent Mental Health, Bahia, Brazil, School of International and Public Affairs, Columbia University
- 2006 2008 Project Coordinator (PI Lipsitz), New York State Psychiatric Institute, Anxiety Disorders Clinic, New York, NY
- 2005 2008 Graduate Assistant (PI Luthar), Clinical/Developmental Psychology Lab, *Teachers College, Columbia University, New York, NY*
- 2006 Clinical Research Extern, Program for Survivors of Torture, Bellevue Hospital, New York, NY
- 2004 2005 Research Assistant (PI Kinney), Genetics Laboratory, McLean Hospital, Belmont, MA

TEACHING EXPERIENCE

Classroom Instruction

- 2022 (Fall) Adjunct Professor, Master's in Clinical Counseling Program, The Citadel, Charleston, SC, Course: *General Psychopathology: Assessment and Differential Diagnosis*.
- 2017 present Didactic Instructor, MUSC Psychiatry Residency Program, Charleston, SC.

Didactics taught: Motivational Interviewing for Substance Use Disorders; Exposure Therapy; Treatment Planning and Goal Setting

- 2013 2014 Adjunct Professor, Clinical Master's Program, Teachers College, Columbia University. Courses: Assessment and Treatment of Alcoholism and Chemical Dependency
- 2011 Instructor, Clinical Master's Program, Teachers College, Columbia University. Course: *Adult Personality and Psychopathology*.
- 2009 Guest Lecturer, Clinical Master's Program, Teachers College, Columbia University. Course: *Developmental Psychopathology: Atypical Contexts*.
- 2008 Teaching Assistant, Teachers College, Columbia University. Course: *Applied Regression Analysis*.

Research Mentorship

- 2021 *Research Preceptor*, Charleston Consortium Psychology Internship Program, MUSC/Ralph H. Johnson VA Medical Center, Charleston, S.C.
 - <u>Mentee</u>: Bryant Stone, Doctoral Candidate Project title: TBD.

Mentee: Alex Miller. Doctoral Candidate

<u>Project title</u>: Age at cannabis use initiation moderates cue-reactivity × impulsivity interactions to predict cannabis-related problems in a treatment-seeking sample.

2019 Research Mentor, Drug Abuse Research Training (DART) Summer Fellowship, MUSC. <u>Mentee</u>: Raquelle Bourgeois, DART Intern

Project title: The Effect of Daily Stressors on Neuroendocrine and Subjective Reactivity Following a Psychosocial Stress Paradigm in Cocaine Dependent Individuals.

2018 Research Mentor, Independent Study, College of Charleston, Charleston, S.C. <u>Mentee</u>: Lauren Campbell, Undergraduate research assistant Project title: Cortisol reactivity and situational drug use in cocaine-dependent females.

2014 – 2015 Master's Thesis Supervisor, Teachers College, Columbia University, New York, NY.
<u>Student</u>: Emily Kaiser
<u>Project title</u>: The Impact of Depressive Symptoms and Substance Use Severity on Treatment
Outcome in an Integrated Care Setting.
<u>Student</u>: Ji Eun Sin,
Project title: Increasing the Role of Motivation in Schizophrenia Treatment.

Clinical Supervision

2017 – 2021	Cognitive-behavioral therapy (CBT) Supervisor, Psychiatry Residency Program, MUSC
2011 – 2012	Clinical Supervisor (externs), North Central Bronx Hospital.
2010	Clinical Supervisor (doctoral students), Center for Educational and Psychological Services,
	Teachers College, Columbia University.

CLINICAL EXPERIENCE

2016 – 2023	Private Faculty Practice, Comprehensive Psychiatric Care Specialists, Charleston, SC
-------------	--

- 2012 2015 Addiction Psychologist, Center for Motivation and Change, New York, NY
- 2012 2013 Psychologist, Psychiatric Emergency Room, North Central Bronx Hospital, Bronx, NY
- 2011 2012 Psychology Intern, North Central Bronx Hospital, Bronx, NY
- 2010 2011 Psychology Extern, New York State Psychiatric Institute, New York, NY
- 2009 2010 Psychology Extern, Jacobi Medical Center, Bronx, NY
- 2009 2010 Clinical Outreach Coordinator, Center for Educational and Psychological Services, Teachers College, Columbia University
- 2008 2010 Psychotherapist-in-Training, Center for Educational and Psychological Services, Teachers College, Columbia University
- 2003 2005 Patient Employment Coordinator, Psychosocial Counselor, Human Rights Officer, North Suffolk Mental Health Association, Chelsea, MA

2003 Applied Behavior Analyst, Rockwood School District, St. Louis, MO

AWARDS AND HONORS G. Alan Marlatt Early Career Presentation Award, APA Division 50, Society of Addiction 2020 Psychology. 2020 Chairman's Research Development Pilot Award, Department of Psychiatry and Behavioral Sciences, MUSC. MUSC/SCTR Clinical and Translational Research Ethics Fellowship. 2019 - 20202017 - 2019NIH Extramural Loan Repayment Program. 2019 Honorarium, Keynote Speaker, Women's Health Research Day, Wake Forest School of Medicine. MUSC Women Scholars Initiative, Career Development Program: Leadership and 2018 Advancement. 2016 NIDA Early Career Investigator Travel Award, APA Convention. NIDA Women & Sex/Gender Differences Junior Investigator Travel Award, CPDD Meeting. 2016 Dissertation Research Fellowship, Teachers College, Columbia University. 2011 - 20122007 – 2011 Graduate Student Scholarship, Teachers College, Columbia University. 2008 Independent Study Field Research Travel Grant, Columbia University. 2004 Distinguished Service Award, North Suffolk Mental Health Association, Boston, MA. 2003 Graduated With Honors, Washington University, St. Louis, MO.

EXTRAMURAL GRANT SUPPORT

Current Support

K23 DA045099-05 (NIH/NIDA)

Sherman (PI)

07/01/2018 - 06/30/2023

Approach Bias Modification for the treatment of cannabis use disorder. This project will investigate the feasibility and efficacy of a novel behavioral treatment - Approach Bias Modification (ABM) – that targets cognitive processing deficits associated with cannabis use. ABM may be an effective adjunct to existing psychosocial interventions for CUD. The award also includes advanced training in neurocognitive assessment, sex/gender research in addiction, and integrated treatment development.

Role: Principal Investigator (10.2 calendar). Coordinate all aspects of the research project and training activities.

R01 DA054617-01 (NIH/NIDA/ORWH) Tomko and McRae-Clark (MPIs) 07/01/2021 – 06/30/2025 Gender and Sex Hormone Influences on Cannabis Use Disorder Remission

This project addresses a key gap in adult CUD trials by identifying gender-specific cannabis reduction thresholds and determining whether progesterone mediates successful cannabis reduction among adults undergoing treatment for CUD.

Role: Co-Investigator (1.2 calendar). Supervise MET therapy, conduct clinical assessments, interpretation of findings, manuscript preparation.

U54 DA016511-19 (NIH/NIDA/ORWH)McRae-Clark, Brady (MPIs)09/30/2018 - 09/29/2023MUSC Specialized Center of Research Excellence on Sex Differences: Impact of Progesterone on Stress-
Reactivity and Cannabis Use in Cannabis Using Men and Women (Subproject #5930)

This project investigates whether progesterone reduces stress cue-reactivity and cannabis use in adults with cannabis use disorder. The study uses Cue-Reactivity Ecological Momentary Assessment to assess stress cue-reactivity in naturalistic outpatient settings.

Role: Co-Investigator (0.6 calendar). Study design and submission, cognitive testing, interpretation of findings, manuscript preparation.

Completed

UG3 DA043231 (NIH/NIDA) McRae-Clark (PI) Advancing varenicline as a treatment for cannabis use disorder. 09/15/2016 - 09/30/2018

This study will initially evaluate the efficacy of varenicline for CUD in a proof-of-concept clinical trial, paired with pre- and post-evaluations of cognitive functioning and neural circuitry involved in cannabis cue reactivity and inhibitory control.

Role: Co-Investigator. Conducted clinical interviews, study therapy sessions, interpretation of findings, and manuscript preparation.

McGinty (PI)

T32 DA007288 (NIH/NIDA)

Drug Abuse Training Program, Medical University of South Carolina

The goals of this training program are to produce well-rounded individuals 1) who are knowledgeable about the basic science and clinical aspects of substance abuse; 2) who are familiar with treatment strategies; and 3) who are trained to appreciate and conduct independent research in the area of substance use, abuse and dependence.

Role: Fellow

P50 DA016511 (NIH/NIAMS) Brady (PI) 09/01/2002 – 07/31/2018 Office of Research on Women's Health (ORWH): Specialized Center of Research (SCOR) on Sex and Gender Factors Affecting Women's Health.

Component 1: Oxytocin and cocaine dependence McRae-Clark (Component PI)

Investigate the impact of oxytocin on the endocrine, physiological and subjective response to a laboratory stressor in cocaine-dependent men and women. In addition, fMRI is being used to assess gender differences in the neural response to oxytocin and to evaluate the impact of oxytocin on functional brain activity.

Role: Co-Investigator. Assisted in data analysis, interpretation of findings, and manuscript preparation.

P50 Pilot Funding Sherman (PI) 01/01/2016 – 12/31/2016 Gender differences in the effect of approach bias modification on cue-reactivity in individuals with cannabis use disorder.

The goals of this study were to assess the feasibility and potential efficacy of approach bias modification in reducing cue reactivity and cannabis use in adults with CUD, and to power the first pilot clinical trial of ABM as an adjunct to psychosocial treatment for CUD (K23 awarded).

Role: Principle Investigator. Designed and coordinated all aspects of study, data analysis, interpretation of findings and manuscript preparation.
